

Icing for Piston Pilots

The turn of seasons from summer to winter exchanges one set of hazards for another. No longer are thunderstorms the worry; icing conditions take over. In this seminar we will discuss icing in depth - its causes and effects, forecast products, and the tools pilots need to avoid and when necessary escape from it.

Directions: Exclusive Aviation Flight School:
Downtown St. Paul Airport [Holman Field]
607 Eaton Street, Hangar #607
St. Paul, MN 55107 Office Number: 651/450-6200

Travel to the end of Eaton Street, past the airport control tower, Signature Flight Service, until the road ahead is blocked by a gate. You will see a banner to the right of the gate with our name (Exclusive Aviation) on it. Enter the gate, and take the next left to hangar 607. You can park in the back of the hangar or wherever other cars are parked. The door should be unlocked, so give it a pull and come on in.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
